

CUSTOM COLD EMAIL BUILDOUT · OFFER OVERVIEW

A machine that prints you **clients**.

I build, configure, and hand off a fully operational cold email system. Built for your offer, tested until it works, owned by you forever.

50 Mailboxes · 10 Domains

50,000 Verified Leads Included

Quarterbacked by Ian

12-Month Unlimited Support

You Own Everything

01 • WHAT THIS IS

An asset. Not an agency.

A one-time done-for-you system build. You get the keys and the machine keeps working without a monthly agency bill attached.

THIS IS

- ✓ A done-for-you system build, fully configured and tested
- ✓ A permanent asset your business owns forever
- ✓ Quarterbacked personally by Ian on strategy
- ✓ 12 months of unlimited support after delivery
- ✓ A system optimized to meet guaranteed benchmarks
- ✓ Training so your team can run it independently

THIS IS NOT

- × An agency retainer with ongoing monthly fees
- × A template or course you figure out yourself
- × A lead list drop with no infrastructure
- × A guarantee clients close. I generate meetings, you close them
- × Multi-offer. One focused offer per build
- × Weekly standups. I am in the loop, not in your daily ops

DELIVERY

Why I do this and no other agency service

My credibility is on the line with every buildout. That is why I stay personally involved in strategy and why the system does not get handed off until it is hitting benchmarks. The goal is not to keep you as a client. The goal is to hand you a machine that runs without me. Every other agency has the opposite incentive. I do not.

02 • DELIVERABLES

Everything we build. All yours.

Every login, every domain, every sequence, every Clay table. You own it all. Stop working with us and nothing disappears.

01

Full Email Bison Account

Fully configured with sequences, leads loaded, settings dialed in. You are the primary owner of the account.

02

10 Domains + 50 Mailboxes

Purchased, configured, authenticated, and warmed over 4 weeks. SPF, DKIM, DMARC set correctly on every domain.

03

Cold Email Sequences

Written for your one offer. Multiple A/B variations baked in. Subject lines, hooks, CTAs, and angles. Ready to test on day one.

04

50,000 Verified Leads

Enriched, validated, filtered for your ICP. Reusable after 3 to 6 months. Built with Clay, Apollo, ZoomInfo, and Apify.

05

Clay Tables + Playbooks

Hyper-enrichment and personalization workflows designed for your ICP. Yours to copy, own, and reuse indefinitely.

06

White Glove Handoff

Private Loom training library, logins to every tool, and a live handoff call so your team knows how to run the machine.

07

Auto-Reply Setup (Optional)

Email Bison auto-reply configured so interested leads get an immediate response. You stop living in the inbox.

08

12 Months Unlimited Support

Post-delivery support via Loom and email. Plus access to my full systems library, community, and group calls.

03 • INVESTMENT

One-time build. Permanent system.

Pay once. Build an asset that generates leads indefinitely. No retainer, no agency dependency. Optional ongoing management if you would rather not run it yourself.

PACKAGE	WHAT'S INCLUDED	BUILD COST
Standard Build 50 mailboxes · 10 domains · 50K leads · sequences · A/B testing · handoff	Best for most B2B offers with defined ICPs	\$15,000
Deep Data Build MOST POPULAR Standard + advanced data mining, automated replies, highly specific audience targeting	Best for niche or complex audiences that require enrichment-heavy prospecting	\$20,000
Deep Data — High Volume Deep Data + 100,000 emails / month sending capacity	For businesses ready to scale outreach aggressively from day one	\$35,000
Deep Data — Enterprise Deep Data + 300,000 emails / month sending capacity	Enterprise-grade volume for large teams with large TAMs	\$50,000

Payment structure. 50% due upfront to reserve your build slot. Remaining 50% auto-billed when the system is delivered and ready to activate. Pay in full and save. ACH available to avoid card processing fees.

Monthly operating costs after delivery. Email Bison — \$97/mo. Google mailbox hosting — \$3.50/mailbox/mo (first 3 months free, ~\$175/mo after for 50 mailboxes). Domain registration — ~\$120 one-time. Additional leads — \$50/10K standard or \$500/10K for deep data enrichment. Total independent run cost is roughly \$270/month.

04 • TIMELINE + GUARANTEE

From payment to **printing leads.**

Most systems are live and optimized within 8 weeks. More complex offers may take longer. We keep working until the system hits benchmark at no extra charge.

WEEK 1**Payment, onboarding + strategy call**

I lead a deep-dive strategy session with the full build team. ICP, offer angles, targeting, and A/B test plan are locked in. Domains and mailboxes purchased within 48 hours.

WEEKS 2-3**List building + copywriting**

ICP research complete. Lead list built and enriched with Clay. Sequences written with multiple angle variations. You review and approve everything before it sends.

WEEK 4**Warmup complete • System activated**

Mailboxes pass deliverability checks. Final QA complete. System ready to activate. We turn it on or you do. Sending ramps up from day one.

WEEKS 5-8**Ramp-up + learning phase**

Sending volume scales to full capacity. A/B test results come in. Winning variants identified, underperformers cut. Biweekly Loom updates throughout.

WEEKS 9+**Optimization, handoff + independence**

System hitting benchmarks. White glove handoff with training. You take over, or elect ongoing management. Either way, the machine keeps running.

**Performance Guarantee**

Industry benchmark for cold email is ~0.4% opportunity rate (roughly one call per 200 sends). Our goal is to double or triple that. If we have not hit benchmark by the time the system is delivered, we keep writing new copy, pulling new leads, and adjusting targeting at no extra charge until we do.

05 • ADD-ONS + NEXT STEPS

Scale it. Or hand it off.

The base build covers one offer, 50 mailboxes, and 50K leads. Everything below is optional. Add now or bolt on later once the system is working.

Scale Sending Volume

Add +200 or +300 mailboxes at \$4/mailbox/month. Triple your daily send capacity without rebuilding anything.

Second Offer Build

Add a second or third offer with unique lists and copy. \$5K for Standard, \$7K for Deep Data. Half-price for existing clients.

LinkedIn Integration

Automate LinkedIn outreach running parallel to email for a true multichannel prospecting system.

Custom GPT Lead Magnets

AI agents with unique knowledge bases that attract, qualify, and engage inbound prospects automatically.

Website Visitor Capture

Identify and email visitors who land on your site. Turn anonymous web traffic into cold outreach targets.

Nurture Automations

CRM email sequences that warm interested-but-not-ready leads over time so no opportunity goes cold.

Ongoing management (optional)

Once your system is built and working, most clients just want us to run it. Monthly management covers new lead data, continuous split-testing, Loom reporting, and copy refinement. Packages run \$1,500 to \$5,000 per month depending on send volume and scope. No long-term contract required.

STEP 1 • RESERVE**Reserve your build slot**

Lock in your spot with the team. 50% upfront reserves the build, remaining 50% on delivery.
